

Check In – Priority Medication

Meds can be marked as priority medication. When entering meds rounds, priority medications will appear in a popup accompanied by then instructions for us.

Click on the **Check In** icon.

Select the appropriate **resident**.

Along the bottom of the screen, you will find a button marked 'Priority Medication'

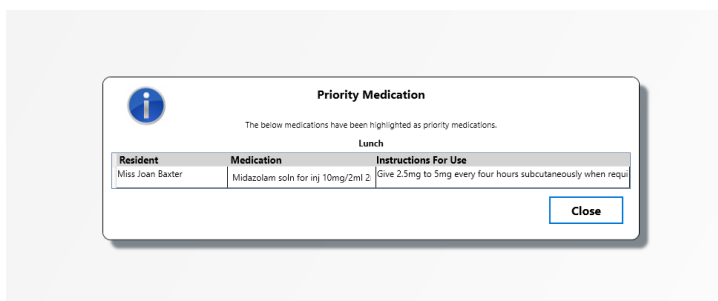

You then click this button to change this medication to a priority med.

Upon clicking this button, a green tick will appear (as shown in the image)

Click save, to save the changes.

No when entering the meds round a prompt will appear.

This prompt will list all your selected priority medications and their instructions.

Click close to continue into the meds round.

You are also able to revert your changes.

Head back to check in and click the priority medication button again to disable this feature for the chosen medication.
